GUNS CRACK WITH TEN MEN DEAD IN STRIKERS' BATTLE

Scores Injured and Many Others Jailed With Estimated Total of Textile Workers Out Now Reaching 360,000—Other Unions May Soon Join the Walkout

WASHINGTON, Sept. 6 (AP).—The titanic United States textile strike expanded today to an accompaniment of gunfire, tear gas and bludgeoning while Federal mediators sped to Washington to undertake the difficult task of ending the industrial warfare.

Ten were dead, scores upon scores injured, additional scores jailed. Thirty-five thousand more mill workers left their looms to join the picket lines. The total on strike was estimated, by independent surveys, to have reached 360,000.

A PITCHED BATTLE
Troops were on march in North Carolina. Firing squadrons of strikers operated with success both there and in New England. A pitched battle between pickets and non-striking workers resulted in six deaths, all strikers, in the tiny South Carolina town of Hones Patti. More than thirty were injured. One striker was shot at Greenville, S.C. With three killed yesterday, fatalities of the strike totaled ten.

"All other questions have been replaced by one paramount issue," said George A. Elson, president of the Cotton Textile Institute. "Ten lives have been needlessly sacrificed in conflict over the inalienable right to work."

"DEEPLY CONCERNED"
"We are deeply concerned about violence in the strike," said Francis J. Gorman, chairman of the United Textile Workers' strike committee. "There has been an appalling breakdown on the part of those who should be peace officers. They have either lost their heads or gone comatose."

WILL FOLLOW MINING PLAN

Cariboo Gold Quartz Company Will Not Change Present Policy

VANCOUVER, Sept. 6 (CP).—There appears to be some misunderstanding regarding the policy of our company as affected by the McCarthy & Blinn report," says Dr. W. B. Burnett, president of Cariboo Gold Quartz, in a statement issued today.

"The object of the directors in having this report was to obtain the opinion of engineers of the highest standing on the prospects of future development of our mine. The opinions expressed by J. Norman Wynne and his company are certainly most gratifying and reassuring. Indeed, they go far in expressing confidence in the ground when they suggest that the evidence of future success is sufficient to warrant even slowing down of milling. If necessary, in order to rush development for a much larger mill."

FOR BIG CAPITAL
"The policy of operating which they recommend we recognize to be a proper policy for big capital. Our partners are almost entirely of the small holdings class, and after seven years of waiting are hardly apt to approve of delaying returns such as a millionaire would consider good business."

"Consequently, the directors find nothing in this report to induce them to change their policy, as roughly outlined at the annual meeting."

"The mill will be operated at its full capacity and development (which is now three times greater than this small mill calls for) will be continued as rapidly as possible."

SWIFT ACTION BY POLICE EXPECTED

Hideout of Labatt Kidnappers Found in Ontario—Big Reward to Be Offered

TORONTO, Sept. 6 (CP).—Indications that the next twenty-four hours may bring swift developments in the search for the kidnappers of John A. Labatt came today following revelation of the hideout near Bracebridge, where the wealthy London, Ont., brewer was held captive for three days.

In London a police official identified with the case gave the warning "watch tomorrow." He confirmed reports that a reward would likely be offered for information leading to apprehension of the kidnappers. The reward has been unofficially set at \$25,000. He warned that new developments would "likely break near the border."

REPORTS ON EMIGRATION

British Committee Finds Time Not Opportune for Land Settlement

LONDON, Sept. 6 (CP).—The inter-departmental committee on Empire migration of the British Government tonight issued a ninety-page report of its lengthy investigations.

The report generally looked forward with hope to the time when Empire migration can resume its normal course, but it frankly recognized that with the present situation and the prices for agricultural produce obtaining, land settlement for the time being on any large scale is out of the question.

MUST HAVE MARKET
Migrants, if they are to live, must be able to sell what they produce in order to buy what they need. "The condition of the market for most agricultural commodities at the moment is, however, such that even a comparatively slight additional production might well bring the level of prices below even their present unremunerative point, and thereby bring disaster to a far larger number of persons than the settlers themselves," said the report.

"For these reasons we should regard the encouragement of any considerable scheme of migration at the present time as out of the question."

BRITAIN MUST BUY
The report commented, "It would appear to follow that the United Kingdom Government can give no greater or more direct stimulus to emigration than by assisting to"

TYPHOON LAYS HOMES IN RUIN

Two-Day Storm Brings Death and Destruction to Luzon Island

MANILA, Sept. 6 (AP).—The fury of a two-day typhoon, which, combined with floods, caused the death of at least two persons and destroyed the bamboo homes of thousands of natives of Northern Luzon Island, had ended today.

Sweeping northward over the island of Luzon, the storm left havoc behind.

The typhoon brought torrential rain, which caused mountain streams to overflow, inundating villages and tobacco lands.

BURIED IN MUD
Land slid away at Vina, in Ilocos Norte Province, burying a man, and at San Fernando, La Union Province, tumbling waves drowned a fisherman in the harbor.

The wind which scourged the forest heights carried a deluge, which rolled down the valleys, demolishing the flimsy bamboo houses along stream courses. Electric power lines were carried away, leaving towns in darkness through the night of storm.

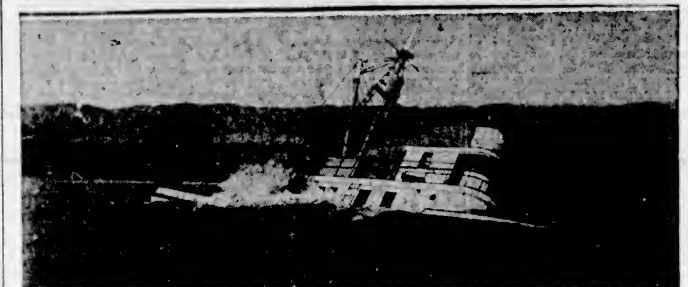

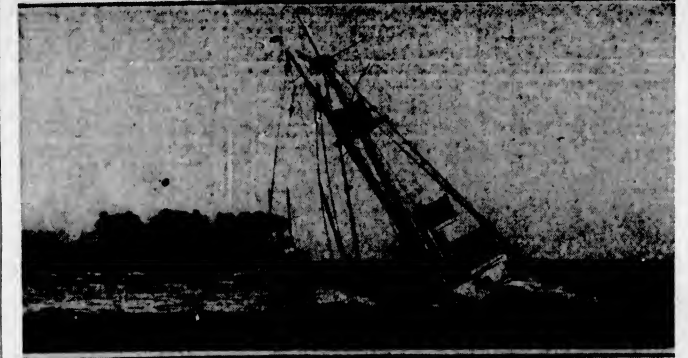

With wire communication destroyed, the only information from the interior came by Government radio.

Refuses to Grant Loan To Russia

(Copyright, 1934, by The Associated Press.)
WASHINGTON, Sept. 6 (AP).—Refusal by President Roosevelt to grant Soviet Russia a long-term loan and commercial credits for more than \$200,000,000 today caused the collapse of debt and trade negotiations between the two governments.

The President told the State Department it would be undesirable to grant a long-term loan to any foreign country, because of Europe's tremendous unpaid debt to the United States.

Is Wrecked on Reef Near Golden Gate

Two photos of the wrecking and sinking of the large fishing schooner Acalin, on perilous Duxbury Reef, ten miles north of the Golden Gate. The skipper, John Acalin, and his crew of ten escaped in lifeboats. Upper photo shows the tug Sea King, as she attempted to drag the Acalin off the reef. Lower photo shows the doomed vessel, decks awash.

Exhibition Entries Now at 17,000 Mark Setting New Record

Hawaiian Volcano in Eruption Following Earthquake

HILO, Hawaii, Sept. 6 (AP).—While the earth writhed and twisted, Kilauea volcano staged its most spectacular eruption in years today. A gigantic fountain of lava, boiling upward from Halemaumau, the fire pit of the volcano, broke through the ancient walls and spilled into Kilauea crater on the side of the peak.

The first earth shock occurred about 2 a.m. (4:30 a.m., P.S.T.), and the eruption followed fifty-five minutes later. Half an hour after the eruption started, the whole floor of the great fire pit was covered fifty feet deep with molten rock.

Manufacturers Urge Reduction in Public Costs as Inevitable

Province Asked to Centralize Financing and Control of Education by Eliminating School Boards and Rearrangement of Responsibilities

CENTRALIZATION of financing and administrative control of public education in provincial hands, with abolition of 821 school boards, and curtailment of the total cost of the bill on the taxpayer were recommended to the Weir School Survey yesterday by the British Columbia Division of the Canadian Manufacturers' Association.

The advisory committee of the survey met for the commencement of study of public submissions to date. Outspoken comment featured a lively meeting, attended on behalf of the Government by Hon. Dr. G. M. Weir.

PROVINCIAL RESPONSIBILITY
The manufacturers' brief made a number of important recommendations. Mere transfer of educational costs from the municipalities to the Province, it pointed out, would not lessen the bill. Education was provincial-wide, and should be considered a provincial responsibility. The costs in 1932-33 were \$8,700,000, of which the Province bore approximately \$3,000,000.

If, on the present basis, the Province bore the whole cost, it would have to find \$5,700,000 more annually.

Prince of Wales Visits Mallorca

PALMA, Mallorca, Sept. 6 (AP).—The Prince of Wales arrived today aboard the yacht Rosaura, with a party of British Cabinet ministers and high officials.

The Prince visited the Cathedral of Santa Maria and the embroidery shop of the Franciscan Convent. He will leave for Cannes, on Saturday, to meet his brother, the Duke of Gloucester.

SCHOOL FIRE ESCAPE BREAKS; VANCOUVER CHILDREN INJURED

Near-Drowning of "Jim" Thomas Is Published Rumor

LONDON, Sept. 7 (AP).—The Mail today published a rumor, which they said had been denied, that Rt. Hon. J. H. Thomas, Dominions Secretary, had a narrow escape from drowning, at Hove, a suburb of Brighton, on Thursday, and was being attended by physicians.

BANK'S HEAD NOW CHOSEN

Graham Ford Towers Is First Governor of National Institution

OTTAWA, Sept. 6 (CP).—The Dominion Government today appointed one of the youngest of Canada's leading bank executives to head the new Central Bank, now in process of establishment. He is Graham Ford Towers, assistant general manager of the Royal Bank of Canada, who will celebrate his thirty-seventh birthday in a few weeks.

Appointment of Mr. Towers as first governor of the Bank of Canada was announced by Hon. E. N. Rhodes, Minister of Finance, upon whose shoulders rests the responsibility of initiating and establishing the new institution.

SWIFT ADVANCEMENT.
Born and educated in Montreal, Mr. Towers joined the Royal Bank fourteen years ago as an economist and secured experience in foreign banking through his subsequent activities as inspector of branches in Cuba. His career has been one of swift advancement, and he has published a volume on "Financing foreign trade" which brought him considerable recognition.

Great Waves Threatening Beach Homes

LOS ANGELES, Sept. 6 (AP).—Enormous waves continued to pound the Southern California coast today, advancing upon Malibu Beach, where many motion picture stars have seaside cottages.

The devastating surf gave up the body of an unidentified man, who presumably perished when the sea dashed the Pine Avenue Pier to splinters at Long Beach yesterday, causing a loss estimated at \$100,000. Reports that two other persons might have lost their lives lacked confirmation.

Owners of homes in the Malibu Beach film colony sent out workers today, to pile sand bags around house foundations, in an effort to prevent damage to the homes.

Legislative Efforts Of Submarine Firm Brought Rich Fruit

Official Boasts Before Senate's Investigating Committee of Success in Influencing House of Representatives—International Submarine Sales Campaign Is Described

WASHINGTON, Sept. 6 (AP).—A boast by an official of the Electric Boat Company, United States submarine builders, that he had placed two members of the powerful House of Representatives Rules Committee and engineered through Congress a \$3,000,000 company claim, today caused an uproar in the Senate subcommittee investigating.

Sterling J. Joyner, the firm's Washington representative, frankly took credit in a letter written by Henry R. Carse, president of the Electric Boat, in December, 1928, for the election to the rules committee of Representative F. W. Porter, of New Jersey, and Joseph Martin, of Massachusetts, both Republicans.

STILL A MEMBER
Port is out of Congress, but Martin is still a member of the house and rules committee.

In another letter dated March 11, 1929, Joyner said: "All our legislative efforts have borne fruit. The Cruiser Bill is passed, the submarine appropriations have been passed, and, as I sincerely promised you the day we lunched together in New York, we did manage, after overcoming a number of handicaps and jumping some hurdles, to get"

Eight Girls Plunged Twenty Feet to Pavement When Wooden Stairway at Simon Fraser School Gives Way Without Warning—Principal Has to Hunt Telephone

Authorities Instituting Searching Investigation

VANCOUVER, Sept. 6 (CP).—Vancouver School Board officials, tonight, started an investigation into the collapse of a school fire escape. It gave way, today, while Grade VII girl pupils were leaving Simon Fraser School, sending eight girls twenty feet to the pavement below.

Rushed to General Hospital, Dora Ellis, twelve, was found to have received a fractured collarbone; Kioyee Kitamura, Japanese, twelve, serious head injuries; Dorothy Ross, twelve, fractured leg, and Connie Borney, thirteen, a possible fractured pelvis.

Huey Long Mobilizes His Troops

NEW ORLEANS, Sept. 6 (AP).—General mobilization of National Guards troops was in progress tonight throughout Louisiana, apparently for service under a martial law threat for New Orleans, issued today by Senator Huey P. Long, who tomorrow enters his "dictatorship" through legislation passed at the recent extra session of the Legislature.

Only a few hours removed from an absolute dictatorship in Louisiana, Senator Long today swiftly moved to call on his State Legislature and soldiers to rout the antagonistic New Orleans Government and make his rule complete.

NOT LOOKING FOR TROUBLE

Outlet for Population Germany's Need—Reich Control for Saar

"It would be an extremely difficult matter for anyone to forecast what may happen in Europe," Professor P. Dengler, of Vienna, told a representative of The Colonist aboard the liner Aorangi, shortly after she docked yesterday afternoon from Honolulu. "For myself, I do not think Germany wants to fight battles; but it will be necessary for her existence to battle economically, and the sooner she is appreciated the sooner will peace and a measure of contentment come to the European scene."

"Occupying German territory, taking charge of her resources and depriving her of her colonial territory, crippled her somewhat and left her no outlet for her expanding population. How will it move now? You suggest through the Polish Corridor into Russia. I don't imagine so."

LAWYERS SEEK STIFF PENALTY

Bar Association Favors Lash for Kidnappers Receiving Short Sentences

MONTREAL, Sept. 6 (CP).—Kidnapping and its proper punishment occupied the attention of the Canadian Bar Association at its annual meeting here, today. In a round-table conference, a motion recommending that the Criminal Code be amended so as to permit judges to impose the lash in sentences under five years was carried.

When the matter came up in the convention as a whole the lash recommendation was dropped and the association went on record as recommending that the Criminal Code be amended in order to give the courts jurisdiction to impose more severe sentences in kidnapping cases.

DEBATE IS GENERAL

Judges and lawyers from all parts of the Dominion took part in the debate on kidnapping. Hon. A. W. Roebuck, K.C., Attorney-General of Ontario, appropriately enough in view of the recent Labatt abduction case, occupied the chair.

Mr. Roebuck considered whipping a hang-over from a previous age, but he favored its imposition if the prison sentence was not longer than five years.

On the suggestion of Mr. Justice J. B. M. Baxter, of New Brunswick, that it was inexpedient for members of the association to discuss details of punishment and that legislation was not the field of discussion of the convention, the recommendation of the committee was altered to carry merely the suggestion that the Code be amended to carry more severe penalties than now exist.

EVA COO MUST DIE FOR MURDER

COOPERSTOWN, N.Y., Sept. 6 (AP).—Eva Coo was found guilty early tonight of the "insurance" murder of Harry Wright, and was sentenced to die in the electric chair at Sing Sing the week of October 15.

A few minutes later her friend, Martha Clift, who turned State's witness against Mrs. Coo, was permitted to plead guilty to second degree murder and was sentenced to serve twenty years to life imprisonment.

A jury of farmers gave its decision in Mrs. Coo's case after two hours' deliberation.

FAIR ENTRIES CREATE RECORD

Continued from Page 1
make the year a banner one by also breaking the attendance record," the alderman said.

BIG INCREASE

In the sheep section, entries this year are 200 ahead of last year. This is largely due to strong outside entries. McLaughlin Bros., of Milner, alone have sent in 152 entries, while the Manitoba Agricultural College sent fifty-seven. Manitoba, Saskatchewan, Alberta and British Columbia are represented on the list of entries.

More than 1,000 birds of every variety will be on exhibition in the poultry building, with entries from all parts of the province and Washington.

In the swine pens there will be 116 hogs, all of them from British Columbia points, with the exception of one exhibitor from Edmonton, who is sending fifty-six hogs.

POULTRY ENTRIES

Poultry—Mrs. M. A. Brassard, Victoria; Jeanne Meignen, Victoria; John A. Stewart, Royal Oak; P. W. Murray, Big Lake; Mrs. D. McPherson, Victoria; Robinson Red Ranch, Prospect Lake; Leslie H. NOT LOOKING FOR TROUBLE

Continued from Page 1
Eastward through Austria? We also have a fairly populous state, and would probably be able to maintain our unity even in case of political union, which is a possibility. Maybe the logical remedy would be to return Germany's colonies, to which her surplus population could migrate.

MAY BE SOLUTION

"For Austria, the restoration of the monarchy might mean the solution of our present difficulties; but whether for an indefinite period or not, is another matter. The present party in power is probably favorably inclined to such a course; but the situation is altogether a very complex one."

FOUNDED CHIEF CLUB

Dr. Calthrop founded the first chess club in this country. That was back in 1860, when he was pastor of a church in Marblehead, Mass. During the same period, he founded the first cricket club in the country.

Streamline Trains Were Conceived Back in 1865

Invention, Amazingly Similar to Ultra-Modern Cars, Patented by Unitarian Minister, Who Recognized Their Importance

(Copyright, 1934, by The North American Newspaper Alliance, Inc.)
SYRACUSE, N.Y., Sept. 7.—When America's most modern train, the gliding, stainless steel Burlington Zephyr, toured the country last April, thousands of persons crowded to see it.

TOOK OUT PATENT

Yet United States patent office records show that, on August 8, 1865, Rev. Dr. Samuel R. Calthrop, pastor of May Memorial Church here for more than forty years, took out a patent on a stream-lined car of a type amazingly similar to the ultra-modern cars introduced on railroads of this country a few months ago.

DRAWINGS LOOK MODERN

Not only do drawings made by Dr. Calthrop to illustrate his "new and useful improvements in the construction of railway trains" closely resemble the modern bullet-shaped trains, but a further likeness appears in his idea of having a false bottom run the full length of the train, under the engine, the tender, and every car.

UNIVERSAL LEVY

The Province, it was further submitted, would save the necessity for annual grants formerly paid to the municipalities, and in new sources of revenue should consider increasing the present gross income tax of 1 per cent as the fairest means of distributing these costs. The whole of this revenue should be earmarked for education, it was urged.

URGENT CENTRALIZATION

Elimination of 821 school boards and concentration of school work into new districts, with one director in each, with regard to population and topography, were urged. Central insurance on buildings, standardization of buildings, central purchases of supplies and other savings in total cost were suggested as possible fruits from consolidation of the system in provincial hands.

CURTAINMENT NECESSARY

The manufacturers, in conclusion, emphasized what they claimed as an imperative necessity to curtail public costs, without sacrificing efficiency. Private businesses had had to reduce costs, and governments with lessened revenues could not escape curtailment made inevitably necessary by the times, it was urged.

Gets Drenched Christening Warship

There's nothing like doing a job as if you meant it, as Lady Shaw-Stewart demonstrated when she cracked a bottle of champagne over the bow of H.M.S. Galatea, England's newest cruiser, during the christening ceremonies at Greenock, Scotland. She broke the bottle so thoroughly that she was drenched with the fluid.

Calthrop, pastor of May Memorial Church here for more than forty years, took out a patent on a stream-lined car of a type amazingly similar to the ultra-modern cars introduced on railroads of this country a few months ago.

DRAWINGS LOOK MODERN

Not only do drawings made by Dr. Calthrop to illustrate his "new and useful improvements in the construction of railway trains" closely resemble the modern bullet-shaped trains, but a further likeness appears in his idea of having a false bottom run the full length of the train, under the engine, the tender, and every car.

UNIVERSAL LEVY

The Province, it was further submitted, would save the necessity for annual grants formerly paid to the municipalities, and in new sources of revenue should consider increasing the present gross income tax of 1 per cent as the fairest means of distributing these costs. The whole of this revenue should be earmarked for education, it was urged.

URGENT CENTRALIZATION

Elimination of 821 school boards and concentration of school work into new districts, with one director in each, with regard to population and topography, were urged. Central insurance on buildings, standardization of buildings, central purchases of supplies and other savings in total cost were suggested as possible fruits from consolidation of the system in provincial hands.

CURTAINMENT NECESSARY

The manufacturers, in conclusion, emphasized what they claimed as an imperative necessity to curtail public costs, without sacrificing efficiency. Private businesses had had to reduce costs, and governments with lessened revenues could not escape curtailment made inevitably necessary by the times, it was urged.

Gets Drenched Christening Warship

There's nothing like doing a job as if you meant it, as Lady Shaw-Stewart demonstrated when she cracked a bottle of champagne over the bow of H.M.S. Galatea, England's newest cruiser, during the christening ceremonies at Greenock, Scotland. She broke the bottle so thoroughly that she was drenched with the fluid.

Streamline Trains Were Conceived Back in 1865

Invention, Amazingly Similar to Ultra-Modern Cars, Patented by Unitarian Minister, Who Recognized Their Importance

(Copyright, 1934, by The North American Newspaper Alliance, Inc.)
SYRACUSE, N.Y., Sept. 7.—When America's most modern train, the gliding, stainless steel Burlington Zephyr, toured the country last April, thousands of persons crowded to see it.

TOOK OUT PATENT

Yet United States patent office records show that, on August 8, 1865, Rev. Dr. Samuel R. Calthrop, pastor of May Memorial Church here for more than forty years, took out a patent on a stream-lined car of a type amazingly similar to the ultra-modern cars introduced on railroads of this country a few months ago.

DRAWINGS LOOK MODERN

Not only do drawings made by Dr. Calthrop to illustrate his "new and useful improvements in the construction of railway trains" closely resemble the modern bullet-shaped trains, but a further likeness appears in his idea of having a false bottom run the full length of the train, under the engine, the tender, and every car.

Took Collection For Sea Cadets On C.P.R. Liner

During the last stay of the Canadian Pacific steamship Empress of Japan, at Vancouver, through the kindness of Captain E. Alkman, general superintendent of the Canadian Pacific Steamships, the Victoria and Island Division of the

Navy League of Canada became richer by \$346.53.

On August 25, the company threw the liner open for public inspection, and on behalf of the local branch, girls of the 2nd B.C. Rangers volunteered to sell tickets, the price of admission for the inspection, held every year, being 25 cents. The amount collected for the local branch of the Navy League, Captain Alkman informed N. Van der Vliet, was the biggest collection taken to date.

BAND TO GIVE PARK CONCERT

Canadian Legion Unit Will Play Test Pieces of Exhibition Contest

The Canadian Legion Band, which won second prize in the band contests at the Canada Pacific Exhibition in Vancouver, will give a well-chosen programme of music at the Beacon Hill Park, at 2 o'clock, Sunday afternoon.

Included on the programme are the test pieces the band played. These are "Grandioso" overture by De Lamer, "Selections from Carmen," by Bizet, "Torch Dance in B Flat," by Meyerbeer, and selections from Wagner's works.

Other selections to be rendered will be Doring's march, "Distant Greeting"; Lohr's waltz, "Where My Caravan Has Rested"; Dorothy Porter's "Rose in the Bud"; Casson's "Ocean Star"; Blankenburg's march, "Territorial"; Rimmer's arrangement of "Eventide"; "Thunderer" march, and, by special request, the hymn "God Be With You."

Flyer Lands at Ottawa

On July 20, John Grierson, aged twenty-seven, set out from Rochester, England, on an Arctic flight to Ottawa. Forty days later, he arrived at his destination after ill-luck had pursued him the greatest part of the way. Grierson followed the route Lindbergh used on his flight last year. It is the shortest route in mileage from the Continent to Canada. The layout shows Grierson being welcomed at Ottawa by Commander A. E. Godfrey (right), O.C. of the Ottawa air station. Below is Grierson's plane, a Fox Moth seaplane. This was Grierson's second attempt to fly the Arctic route.

B.C. CABINET IS DISPERSED

Premier to Go North Next Week in Brief Visit to His Home Constituency

Taken out of Victoria by a combination of circumstances, the entire British Columbia Cabinet was out of the city yesterday, with the exception of Hon. Dr. G. M. Weir, who remained to attend sittings of the school survey.

Premier Pattullo, Hon. John Hart, Hon. Gordon Sloan, K.C., and Hon. A. W. Gray were guests of the British Columbia Electric Railway Company in an informal tour over the hydro-electric plant at Jordan River.

Hon. George S. Pearson was making a trip up the West Coast, by steamer, in his capacity as Commissioner of British Columbia Fisheries.

Hon. K. C. MacDonald was on the way to Pemberton Meadows, on the Mainland, to interview vegetable growers interested in the new marketing schemes.

ON WAY EAST

Hon. F. M. MacPherson was en route East to Murray Bay, Quebec, from Vancouver, to attend a three-day convention of the Canadian Good Roads League, as third vice-president of that body and British Columbia Minister of Public Works.

Premier Pattullo, it was announced, will go to Vancouver on Wednesday, of next week, to speak over the Canadian National broadcasting station, between 7:30 p.m. and 8 p.m., prior to sailing on the same day for Prince Rupert, to visit his home constituency.

The Premier's plans for a more general tour of northern ridings have been canceled, due to preparations here for a fourth Ottawa conference, timed to take place this fall.

G. M. STEVENSON CALLED TO REST

Resident Here for Twenty Years
Passes After Long Illness—
Funeral Tomorrow

George McKinnell Stevenson, 1925 Montleith Road, Oak Bay, died on Wednesday, at Royal Jubilee Hospital, at the age of seventy-nine years. He was born in Scotland, and came to Victoria twenty years ago from Innisfail, Alta.

He is survived by his widow, Mrs. Margaret Stevenson, at home; four daughters, Mrs. M. Hodge, Greenock, Scotland; Mrs. R. Smith, London, England; Mrs. George Matthews, Los Angeles, and Mrs. Walter Gray, 1330 Monterey Avenue, Victoria; and four sons, James and Robert, residing at Harrow, George, in Los Angeles, and William, of Vancouver; also one sister, Mrs. Barr, Glasgow, Scotland.

Funeral services will be held on Saturday afternoon, at 2:30 o'clock, at the parlors of the S. J. Curry & Son Funeral Home. Rev. James Hood will officiate, and interment will be in the family plot at Royal Oak Burial Park.

TIME EXTENDED TO REPURCHASE

Six Months Allowed Sanction Ratepayers Who Lost Properties at 1933 Tax Sale

Ratepayers in Saanich whose homes reverted to the municipality at the 1933 tax sale will have six months after the time of redemption to repurchase the property. The price will be the cost of the property to the municipality plus legal expenses. Many taxpayers will be affected.

This action was taken by the Municipal Council last night.

In the two resolutions, Reeve William Crouch and Municipal Clerk R. R. F. Sewell were empowered to sell the property at cash or term rates.

In explaining the resolution Reeve Crouch declared that it would mainly apply to lots with homes standing on them. "We are not going to sell out any of our ratepayers who can't possibly afford to pay," he stated.

He also said that the 1934 tax sale is being adjourned daily until September 10, so that taxpayers affected may have an opportunity of placing their cases before the reeve prior to the sale.

The two resolutions passed last night follow, in detail:

"That in all cases where property by reason of the 1933 tax sale has reverted to the corporation, the reeve and clerk be given authority to resell to the registered owner or holder of the mortgage, at the amount which the property has cost the corporation, plus legal expenses. Sales to be for cash or terms at the discretion of the reeve or clerk."

"And further, that none of this property be listed until six months after the time of redemption has expired."

Wants Christmas Out of Prison

MONTREAL, Sept. 6 (CP).—Pleading guilty with another man to a series of burglaries totaling \$10,000, Harry Burke, thirty-eight, pleaded today for a short sentence.

He told the judge he had not been out of jail on Christmas Day since he was fourteen. He and Jack Russell, twenty-six, will be sentenced later.

DOES IMPORTANT SCIENTIFIC WORK

Noel J. Ogilvie, of Ottawa, Paid Short Visit to Coast During Week

Noel J. Ogilvie, of Ottawa, who is director of the geodetic survey of Canada, and who has been spending a few days on the coast, says that the work in connection with that department of scientific research in Canada is being carried out as far as the amount available for it will extend. The results of the work are always available to provincial governments and municipalities, as well as engineering corporations, which may require to have geographic positions accurately designated. The height above sea level, of locations, is also made available for them.

Mr. Ogilvie is H.B.M. International boundary commissioner, and in this connection work is always going on, keeping the markers of the boundary line between the Dominion and the United States cleared. The Alaskan part of the work was completed some years ago. Mr. Ogilvie took an active part in the carrying out of that work.

The boundary line from the Atlantic to the Pacific, between the two countries, is always requiring attention in parts. Whenever a new road is constructed across the boundary, the task is imposed upon the commission to have suitable monuments erected to indicate the location of the boundary. Other attention has constantly to be given to the line to maintain the usefulness of the boundary mark.

FUNERAL TODAY

The funeral of the late Miss Elsie Mabel Turnbull will take place from Hayward's B.C. Funeral Chapel this afternoon, at 3 o'clock, Rev. J. H. A. Warr conducting the service. Interment will be made in the family plot in Ross Bay Cemetery.

LEAVE FOR AUSTRALIA

LONDON, Sept. 6 (CP-Havas).—Malcolm MacDonald, M.P., and Sheila MacDonald, son and daughter of Prime Minister Ramsay MacDonald, left for Australia today.

LAST RITES SATURDAY

Funeral service for the late Mrs. Mary Denbigh will take place at Hayward's B.C. Funeral Chapel on Saturday, at 2 p.m., Rev. Canon H. W. G. Stocken officiating. Interment will be made in the family plot in Royal Oak Burial Park. No flowers by request.

RECREATIONAL FACILITIES

During the visit here of Mr. T. H. Eslick, the well-known architect of recreational activities, it would be a matter of considerable interest to all our citizens if the City Council were to consult him on plans that might be devised for the development of Victoria's waterfront. It is obvious that Mr. Eslick has been struck by the advantages that this city enjoys by its location and recreational opportunities. There are few more important assets in this scheme than the waterfront along which, within the municipal limits, there is so much land owned by the city. Moreover, the fact that waterfront is slowly eroding, with but minor precautions taken for its conservation, should impress an authority like Mr. Eslick with the desirability of steps being taken not only to preserve but to beautify an asset that is too largely allowed to go to waste.

The opportunity may not present itself again for a long time to come to obtain advice from such an authority as Mr. Eslick. His great experience and the vision that he brings to bear on such matters mean he would not take long to propose a scheme for waterfront development. Victoria caters to tourists in every possible way, except in the way of providing those waterfront facilities for recreational purposes that are found in any town of pretensions to be called a seaside resort. Through the years attempt after attempt has been made to arouse successive City Councils to the importance of the development of the waterfront. The appeal has fallen on deaf ears, very largely, although there is a substantial body of public opinion that believes that no plan for civic development is of greater potential value than the establishment of recreational facilities for our own people and visitors. Many proposals have been made by laymen. The opportunity exists now of securing an expert's opinion on the subject, and advantage in this regard could well be taken of the presence here of Mr. Eslick.

COCOS ISLAND AGAIN

The lure of Cocos Island, with its reported treasure worth millions, never seems to fade. The myth, if myth it is or very truth, has it, according to records in the British Foreign Office, that there are five separate treasures on the island, buried by pirates who robbed galleons in the Spanish Main. The estimated worth is \$70,000,000; it may be as much as \$125,000,000. Most assuredly exploring the hope is worth the time and trouble and expense of those who can bring those factors to bear on the search.

The latest expedition has set sail from the West India Dock in London—a 600-ton twin-screw vessel, Queen of Scots. Its leadership is in the hands of Mr. S. MacFarlane Arthur, who has already spent ten months on the island and who describes his latest venture as the "first scientific treasure hunt." In fact the search is to be essayed as an engineering problem. Mr. Arthur claims there is definite evidence of where the treasure is buried, and that it is close to the shore, so an area is to be electrified and the ground will be prodded with instruments. When there is a reaction a core drill will be used. An aeroplane is to be used for survey purposes, and telephones will link up the camp and the works. The expedition has been in course of preparation for one and a half years, and enough money is available to carry on the search, if necessary, for two and a half years.

The personnel of the searchers for Cocos Island treasure is composed of Mr. S. MacFarlane Arthur, Colonel J. E. Leckie (mining engineer), Mr. Stratford D. Jolly, Captain Charles Osborne Pelkington, Commander Frank Worsley and Commander Joseph Stenhouse, who is called "Shackleton"; Dr. J. W. Harle (geologist) and Mr. J. H. Marten (airman). The Queen of Scots is commanded by Captain A. D. Bellingsham and has a crew of twenty. Hitherto, Cocos Island has defied a dozen attempts to unveil its reputed riches. No expedition, however, hitherto has been organized in quite the same way as that now on its way to the Pacific.

"IF I WERE DICTATOR"

Some prominent men in Great Britain have been asked what they would do if they were dictators, and their ideas on the subject have been published. Their views on how they would remould "this sorry Scheme of things entire . . . nearer to the Heart's Desire" are probably emblematic of the estimate of what is wrong with society. Four of the men who have written on the subject are Lord Raglan, Lord Dunsany, Professor Julian Huxley and Mr. St. John Ervine. The latter is wholly critical of other would-be dictators, such as M. Stalin and Sir Stafford Cripps, and says, if he were an autocrat, he would use his power to bring back liberty to the common people. Professor Huxley says he would encourage "intellectual gentleness."

Lord Raglan, among other tenets, would require candidates for the Foreign Office examination to be tall and of good appearance and physique, because he says that in the past much harm has been done to British prestige abroad by the mean appearance of British representatives. Possibly there is an analogy to this desire to be found in the case of Signor Mussolini in withdrawing the Italian organ-grinder from foreign lands. Lord Dunsany does not take the proposal of dictatorship very seriously. For his part, he says, he is greatly and rightly concerned about, among other benevolent matters, the cutting off of dogs' tails. Even in a trifle like this he sees that dictators, both present and prospective, should be at bottom humane and human. In the Huxleyan concept there is "scientific humanism" as a basis, of a character suspiciously like the Wellesian brand. One commentator on the views expressed says that "the best of them any wide awake democracy could endorse, and the worst of them no dictatorship could enforce—in Britain at any rate."

A CITY AFLOAT

No launch of any vessel in Great Britain, perhaps even including the interest that attached to the taking to the water of the first Dreadnought, has ever thrilled the imagination of the public to the same extent as the forthcoming launch of Cunarder 534, the world's largest ship. It is to be launched and christened by Her Majesty on September 25, at John Brown's Clydebank works. The vessel will require eighteen months to finish after the launch, and at least 100,000 men will play a part in the finishing touches. It gives work, too, to people overseas, for rare woods are being imported to Great Britain from different parts of the Empire that will go into the furnishings of the vessel.

The items connected with the new Cunarder that fascinate public attention are those relating to its size. In one of the lounges it would be possible to place nine double-decker omnibuses and three large locomotives on top of them. In another of the public rooms the first Cunarder could be stored, together with the fleet commanded by Columbus when he discovered America. The promenade deck is 750 feet long, and there will be two acres of deck available for walking and games. There are to be Roman, Turkish and Russian baths abroad, together with special curative spa baths; a gymnasium equipped with all the latest appliances, a boxing ring, a theatre for sound films and a street of shops. Passengers with motor cars will be able to drive aboard the ship and park in the large garage to be provided. On the top deck there is storage room for aeroplanes. The electric plant to be installed is of a character great enough to supply a town as large as Brighton.

In short, the new Cunarder when complete is to be a floating city. It is small wonder that so much interest should be centred on the forthcoming launch, and the greatest interest of all will be when the vessel sets out on her first trans-Atlantic voyage and makes the effort to recapture for Great Britain the Blue Ribbon of that ocean.

ETERNAL

I have found peace beneath an azure roof.
In green fields, by little crystal streams,
In winding country lanes, and where aloof
From noisy, clamorous life the forest dreams.

I love the pink of apple buds, the blue
Of twinkling waters in the sun, the thrill
Of the first opening yellow broom, the hue
Of heaving haze on a distant hill.

The flight of rooks across an amber sky.
Or when in twilight rain the zephyr blows
And gently spills sweet scents as it goes by.
Of evening stock, and lavender, and the rose.

And when the humid hills put on their dress
Of mingled colorings, and the far woods
Merge in a mist of pale blue loveliness
And deep peace breathes from the solitudes.

And, listen! On a still, hot noon all these
Make music—rustling leaves, the swish of wings.
Bird songs, and the song of humming bees,
Bleating of sheep and the stream's low murmurings.

When Earth on me has closed its homely door,
I cannot think that these could pass away;
That what was lovely once could be no more—
Lost in oblivion's mist—nay, rather, say—
That the world's wealth of sight and scent and sound
Are but small jewels from heaven's diadem.
Here is the part—beyond the whole abounds;
Here the obscure, but there the perfect gem.

—Hilda Meredith.

COMPENSATION

Could I create one thing of loveliness,
One gem of wonder, beauty, rare,
Before I journey down the thoroughfare
Of death, I know I would indeed possess
A joy transcending previous distress.

If I should rain one, I would not care.
Having conceived at last one perfect prayer
And left earth richer for my lone career.

Could I create, in art of any form,
One thing of beauty—cry one deathless cry
Of mortal anguish graven upon my soul
Because of love, insurgent as a storm,
I know my spirit then would gladly die
And I could freely let death take its toll.

—Elsie P. Philippi, in "Poetry World."

THE WEATHER

Meteorological Office, Victoria, B.C., at 8 p.m., September 6, 1934.

SYNOPSIS
The barometer is falling on the Northern Coast, and unsettled weather is spreading southward. Fair, warm weather is reported in the Prairie Provinces.

Note and Comment

By R. B. D.

A little nonsense now and then,
Is relaxed by the wisest men.
—Ovid.

Whimsical Sir James Barrie has printed another good one—one that his old friends in quaint Thrums would call "a guid ane." Sir James probably had been reading something those eminent but unimaginative diggers for truth had been saying about the Garden of Eden and the origin of man and the creation of woman. One of the things that fascinate public attention are those relating to its size. In one of the lounges it would be possible to place nine double-decker omnibuses and three large locomotives on top of them. In another of the public rooms the first Cunarder could be stored, together with the fleet commanded by Columbus when he discovered America. The promenade deck is 750 feet long, and there will be two acres of deck available for walking and games. There are to be Roman, Turkish and Russian baths abroad, together with special curative spa baths; a gymnasium equipped with all the latest appliances, a boxing ring, a theatre for sound films and a street of shops. Passengers with motor cars will be able to drive aboard the ship and park in the large garage to be provided. On the top deck there is storage room for aeroplanes. The electric plant to be installed is of a character great enough to supply a town as large as Brighton.

ROTARY EXERTS REAL INFLUENCE

Hugh A. Chisholm Says Latin America Is Undergoing Change in Political Way

In the opinion of Hugh A. Chisholm, there is a disposition on the part of the Latin peoples of South and Central America to settle down to less revolutionary movements and to reach some conclusions with respect to economic troubles. Speaking before the Victoria Rotary Club, yesterday, in the Empress Hotel, the visitor from Havana, Cuba, ascribed no small amount of the credit for the bettering of social and political relations to the influence of Rotary.

Rotary in the South was making history, said the speaker. He added that the influence of the church had been weakened considerably so that in reality it was simply called in to marry and to bury the people of the South. In the Rotary the people were finding a live spirit which was invoked constantly.

This was manifested in the case of Colombia, when international trouble threatened, and the president of that republic, who was a Rotarian, refused to take action of a warlike character until the other fellow's viewpoint was learned. The result was that along the lines of Rotary a settlement was reached.

Again in Havana, Cuba, where Mr. Chisholm resides, when civil war seemed some months ago, the Rotary Club appointed a committee of five, headed by Louis Machado, who is well known in Victoria, where he visited in connection with the Rotary gathering held here a few years ago. After several months of negotiation, a settlement was reached with the provision that two members of the Rotary committee should have places on the cabinet that was formed.

Mr. Chisholm made an appeal to the North to cultivate the friendly relations with the South. There should be a disposition to interchange goods between the two parts. The South, he said, was a most entrancing country, peopled by the Latin races, whose refinement was equalled by none other in the world; there was plenty to attract people from the North.

Tracing the history of the countries and the characteristics of the people, Mr. Chisholm declared the people of the Spanish race were not revolutionaries in the same sense as those in the North demanded elections. Revolution was Spain's worst legacy to South America, but conditions were happily changing, he asserted.

FIFTY YEARS AGO TODAY

(From The Daily British Colonist of September 7, 1884)

Views of Victoria—J. B. Ferguson & Company have presented to The Colonist a copy of their first view of Victoria, the most accurate of any since 1881. Having previously noticed this remarkable picture we have now come to advise all lovers of this beautiful city to buy a copy and frame it. In a few years it will be historical.

Talesworth Wines Cut—Five miles from Victoria, on Sunday, the talesworth vines were found to be cut by some person at present unknown. The damage was repaired by J. B. Clark.

Quarantine Station—Mr. Hayward will commence constructing of the quarantine building at Albermar Road today. The building and the vines will be 100 feet long and fifty wide.

HAS FATAL FALL FROM HER WHEEL

Young Girl of Nanaimo Killed Last Evening in Accident on Road

NANAIMO, Sept. 6. — Catherine P. Esteridge, aged fourteen, daughter of Mr. Esteridge, section foreman of the E. & N. Railway at Nanaimo, was instantly killed at 5:30 o'clock tonight near Hardy's mill. Nanaimo, when, according to eye-witnesses she fell off her bicycle while endeavoring to pass a car driven by J. R. Frampton, who immediately notified Nanaimo police. Dr. Hall and Constable Jacklin reached the scene of the accident fifteen minutes later. According to the story given to police, Frampton saw the girl traveling south in the same direction as his machine. As she was passed she glanced backward, causing her bicycle to swerve to the centre of the road.

MICHAEL C. BAILEY DIES IN HOSPITAL

There passed away, yesterday, at the Jubilee Hospital, Michael Cole Bailey, aged eighty-three years. He was a native of England and had been a resident of Victoria for the past eighteen months. His late residence was 1251 Pandora Avenue. Mr. Bailey was formerly a resident of Tacoma.

He is survived by two sons and two daughters. Walter Bailey, of Sacramento, and E. C. Bailey, of Victoria; Mrs. N. R. Foxgood, of Victoria, and Mrs. E. Laird, of Tacoma, also eight grandchildren and seven great-grandchildren.

The remains are resting at the Thomson Funeral Home, where the funeral will take place on Monday afternoon at 2:30 o'clock. Interment will be made in the family plot in Ross Bay Cemetery.

SAVES BIOGRAPHY FROM SHIPWRECK

Noel Coward loses his clothes and money when yacht is stranded.

NICE, France, Sept. 6 (AP).—With the water-soaked story of his life clutched to his bosom, Noel Coward came back to civilization, today.

All his clothes, except the suit he wore, were in the sea-swamped cabin of the yacht *Maori*, stranded on a shoal off Corsica, in the Mediterranean. His money was there, too, and he was traveling on funds cabled to him by his London bankers.

The only thing he had salvaged was the manuscript of the book he intends to call "My Biography."

Coward himself was out of danger when the yacht went down, for he was ashore, and the crew of the yacht, which was owned by an English friend, escaped with slight injury.

When Captain Scott was born

That intrepid explorer, Captain Scott, whose memory is revered throughout the Empire, was born in 1868.

The EMU Company was founded in the same year and has made history in another direction. It was a pioneer of Australian Wines

and is to-day the largest exporter of wines from Australia.

EMU 444 and EMU 999—White and Tawny Port—are two of the Company's most famous wines. Produced on our own vineyards at Morphet Vale (South Australia), made under hygienic conditions and aged in the wood, they are Australia's choicest Ports.

Because of their Empire origin, they receive a tariff preference when entering Canada, which explains why they cost much less than Foreign Port of equal quality.

EMU Australian PORT \$1.00
26 ounce bottle

EMU 444 (Rich White)
EMU 999 (Rich Tawny)

The EMU WINE Co., Ltd. (Established 1905)
Adeleide & London, (England)

Empire Preference—lower cost

Premier and Cabinet Ministers Pay Visit To Big Power Plant

Inspection of Jordan River Hydro-Electric Development Proves Delight to Government Officials—Tour Made Over Scenic Railway

ENJOYING a day in the open, free from the cares of office and at the same time adding to their store of knowledge some of the elementary details of the operation of a modern power plant that provides the Capital City of the Province with its electrical energy, Premier T. D. Pattullo and some members of his Cabinet paid a visit to the Jordan River development, yesterday, as guests of the British Columbia Electric Railway Company.

The tour, which included a drive along the scenic West Coast highway, permitted the Premier, members of the Cabinet and a few friends to view the big power project in all its phases and from the flume head to the tailrace.

The power station, with its whirling generators creating a constant hum and its intricate system of control, formed an interesting feature of the tour. In the station the members of the Government were made familiar with the operation of the huge generators developing 41,750 potential horsepower, all under the control of a few operators who, with the turn of a handle or the pull of a switch, hold constantly in check and in even balance the racing machines which provide the energy for the operation of industry and provide the comforts of home.

Those comprising the party were Premier Pattullo, Hon. John Hart, Hon. G. M. Sloan, Hon. A. Wells Gray, Dr. Carrothers, Mr. Goward, J. W. Hughes, manager of the Canadian Bank of Commerce, Government Street; J. R. Matson, publisher of The Colonist; B. C. Nicholas, Editor of The Times; Comte Jean de Suzannet, J. D. Angus, L. Ogilvie, R. C. Cartwright, secretary to the Premier; A. D. King, company's solicitor; E. N. Horsey, company's resident engineer, and T. R. Myers, company's publicity director.

The tour, which included a drive along the scenic West Coast highway, permitted the Premier, members of the Cabinet and a few friends to view the big power project in all its phases and from the flume head to the tailrace.

Mill Proves Successful

Operations in the Taseko River district are attracting the attention of mining men throughout British Columbia. The manner in which the Taylor Windfall company overcame lack of transportation facilities by flying in a ten-ton mill has been generally applauded. In the top picture the mill, now in successful operation, is shown. From the first fourteen and a half tons of ore put through, fifty-four ounces of gold were extracted. Other gold bricks are ready to come out. The lower picture shows diamond drilling on the property. Excellent values were disclosed by the drills. Considerable activity in staking in the district is reported.

Star Study Series Will End Monday

The delightful series of evenings with the stars which have proved so popular this year will conclude on Monday next, with one of the most interesting addresses of the whole series. This will be delivered by Charles Hartley, M.A., and the title of his address will be "How Did the Solar System Come About?"

The meeting will start at 8 p.m. sharp, and will be held in the laboratory at the Victoria College. The Victoria Centre of the Royal Astronomical Society of Canada extends a hearty invitation to all interested to attend this last meeting of the Summer course of lectures.

The president, H. Boyd Brydon, will have an interesting announcement to make regarding the series of lectures which have been arranged for the Winter session, to commence on September 21, at the T.W.C. parlors, Blanshard Street.

Mr. Rowse has already started two men clearing up and expects to start more in a few days. Suitable buildings and bunkers will also be erected in the very near future. The transaction of the lease and option was put through by the City Brokerage, of which A. T. Abbey is manager.

Alaskan Pioneer Died on Trail at White Pass City

—VANCOUVER, Sept. 6.—"Most decidedly a very successful season," was the comment of L. B. Jones, general agent for the Canadian National Steamships at Skagway, Alaska, who returned to Vancouver this morning on C.N.S. Prince Rupert, which completed its last Alaska sailing of the season, bringing in 200 passengers.

An old timer in the North himself, Mr. Jones reported the passing of some notable characters in Alaska this year. Among them were Joe Brooks, who helped build the White Pass trail, and Lee Hudson, town marshal of Skagway. Brooks, who retired to California some years ago, returned to Alaska this year, intending to write a book on the historic trail over which he ran a 300-horse pack train. He died on the trail at White Pass City, happy to pass on in the country that he helped pioneer.

On board the Rupert was Jack Learmont, one time Royal North-West Mounted Policeman, who settled in Dawson in 1902 and became owner of Hotel Dawson. After many years in the north country, he is retiring. Having sold the hotel, he will travel before making his home in a more temperate climate. Just now he is bound for New York to visit his sister.

REPORTS ON EMIGRATION

Continued from Page 1

create increased markets in this country or elsewhere for the Dominion producer, thereby breaking the vicious circle whereby low returns to the producer and the low purchasing power of this country result from and are caused by one another.

The United Kingdom Government should assist migration only when conditions were favorable to satisfactory settlement, and overseas governments were prepared to receive new migrants and join in arrangements to give them a real prospect of success.

GOVERNMENTAL ASSISTANCE

The United Kingdom Government should discontinue the policy of providing capital for land settlement, and no special assistance should be given to group settlement schemes.

BANK'S HEAD NOW CHOSEN

Continued from Page 1

considerable acclaim in financial circles. In accordance with the legislation authorizing establishment of the Central Bank, Mr. Towers' term of office will be seven years, after which he will be eligible for reappointment. He will leave shortly to visit European central banks to gain experience and knowledge of assistance to him in his new work. It is anticipated that the Bank of Canada will be in operation shortly after the new year.

It is the intention of the Government that a deputy governor will be secured from some other central bank within the Empire so that in its initial stages the Bank of Canada may have the services of one high executive with practical experience. With the problem of electing a

supreme head for the bank now solved, it is understood further organization will go forward rapidly. There will be a deputy governor and possibly an assistant.

Mr. Rhodes will also have to recommend to the Governor-in-Council the names of seven shareholders who will act with the governor and deputy governor as the board of directors. This, of course, cannot be done until the capital stock of \$5,000,000 has been offered and subscribed for, which will be done shortly.

Ottawa will be the main office of the Central Bank and decision is expected shortly on the premises to be chosen.

She said to me—what about a mixed double..?

• I said to her—I never mix doubles, I always stick to Johnnie Walker...!

YOUNG PRIESTS SENT TO CHINA

One Victoria Boy, Father Roland Roberts, Joining Oriental Mission Party

The Christian mission field in China is shortly to receive another missionary, a young man who will be at Lushan, Chikiang, the headquarters of the mission work to which he had already been appointed in the Orient. He has now returned to spend a few weeks at home before sailing for China with three other young Canadian priests.

Rev. Father J. J. of Toronto, and Rev. Father C. Strang and Rev. Father H. McGettigan, of St. John's, Newfoundland who have all been appointed to the same mission in Chikiang Province.

FOR TEN YEARS

The four young priests are saying good-bye to Canada for at least ten years, as their appointment is for that period. For the first year they will be at Lushan, Chikiang, the headquarters of the Canadian and Newfoundland Catholic Foreign Missions.

McGrath, the mission superior and prefect apostolic, preparing for the more responsible duties they will have in the remoter missions to which they will be assigned at the end of that time. The territory covered by the Catholic mission in Chikiang is approximately 100 square miles, and embraces a population of about 2,500,000. Fifteen young Canadian priests are already in the field, and the four who are leaving next month from this port are intended as reinforcements. None yet speak Chinese, but will concentrate on the study of the language during the next twelve months.

After a short inspection of Forebay Dam, the visitors stepped aboard a three-section gasoline-driven scenic railway train that ran alongside the large flume.

Hugging close to the mountain sides, the small gauge railway train ran through a country of rugged beauty, where towering evergreens grew right beside the track, and small shrubs, turning to Autumn colors, added additional grandeur. Past the stream beds, where in winter are turned into raging torrents, the string of cars rolled along up the slight grade.

Premier Pattullo and his Cabinet ministers were high in their praise of the entire trip, and when the Forebay Dam was reached, they felt further need to express their amazement at the wonders performed by man in that wild country.

COCKRILL TO FACE TRIAL

Operative Charged in Van-
couver With Trying to
Defeat Justice

VANCOUVER, Sept. 6 (CP). — Charged with attempting to pervert the ends of justice by means of promises and threats, Thomas Cockrill, farmer, of Mission, B.C., will be committed on September 13 to stand trial, Magistrate W. W. McKay stated today, after evidence had been taken at a preliminary hearing in police court. Commitment was deferred at the request of defence counsel.

Allegations that Cockrill had attempted by threats and promises to induce Edward Tufts, former Royal Canadian Mounted Police operative, to withdraw an appeal against a Liquor Act conviction, and to give false evidence were contained in the charge against Cockrill.

WAS CONVICTED
Tufts testified that he had been convicted in Richmond, in May, of a liquor charge, and had been fined \$500. He appealed, and the appeal was pending. He said he had been employed as an operative by the R.C.M.P. and the charge had arisen out of that work.

Some time after the conviction, Tufts met Cockrill, whom he had known for eight years, he said. Cockrill was alleged to have shown him a police badge, and said he was working for the Richmond police, and that he had been asked by Chief W. A. Johnson and Constable H. Timms, of that force, to see him.

Tufts stated that Cockrill, in subsequent conversations, declared that if he Tufts would turn "King's evidence" in another case, and would withdraw his appeal, he could pay the fine and it would be returned to him. The evidence he was allegedly asked to give was that he had been in Richmond on April 5, and had seen an R.C.M.P. officer sell liquor to a Chinese.

TRAP Laid
Tufts said that as a result of these and other conversations with Cockrill, he consulted his lawyer on July 19, and a police trap was laid in a store on Main Street in Vancouver. Detectives secreted themselves in the store, and were there when Cockrill arrived by appointment.

Miss L. E. Kemp, who was on Tufts' bail bonds, produced an uncompleted cheque and handed it to Cockrill, asking him how she could be assured the fine would be returned. Cockrill allegedly replied that he was to get in touch with Chief Johnson regarding the matter, as he was willing to pay it.

NO AUTHORITY
Chief Johnson testified that Cockrill had no authority to represent him, and had not been authorized by him to make any representations regarding the fine, and no arrangements for the return of the fine money had been made.

The chief stated Cockrill had been employed as an operative in liquor work by Richmond Municipality, from December 4 to December 31, 1933, but his commission had expired on the latter date. Johnson had taken Cockrill's special police badge away from him.

Japanese Naval Policy Settled
TOKIO, Sept. 7 (AP). — The Japanese Cabinet approved today a basic policy concerning disarmament, which it was understood would be the tenor of Japan's position at the 1935 Naval Conference.

The policy was understood to include abrogation of the Washington Naval Treaty, abandonment of the ratio system and insistence on the principle of armament equality.

Five Meet Death In Car Collision
SEYMOUR, Conn., Sept. 7 (AP). — Five occupants of a motor car were killed instantly and a sixth was probably fatally injured, early today, when their car collided with a trolley car here.

Mussolini Goes Into the Trenches

Premier Benito Mussolini of Italy (centre, wearing white cap) and King Victor of Italy (standing next to Mussolini to the left in picture) watching operations during the recent army manoeuvres in Futa Pass, in the Apennines. One hundred thousand men took part, and at one time during the fighting, the Duke shouldered a rifle and marched with the Bersaglieri, his war-time organ, also commanded his Cabinet ministers to serve in the manoeuvres with their old units.

CHILDREN INJURED WHEN STAIRS BREAK

Continued from Page 1
Principal S. D. Madows rushed to a nearby house where he phoned for ambulances. The school phone was removed last year as an economy measure.

EVIDENCE OF DRY ROT
City fire department officials later examined the stairway for evidence of dry rot, which is believed to be responsible for the collapse of the structure.

"This accident is an indication that we ought, in future, spend more for maintenance and repair than we have in the past two years," stated N. M. McCorkindale, superintendent of schools for Vancouver.

ESCAPES IN VICTORIA
Practically all the schools of Victoria are so constructed that the need for outside fire escape is eliminated. It was stated by Fire Chief Alex Munro, who has charge of the inspection of schools in so far as they relate to safety.

The schools are mostly of two-story construction and outside escapes are not required, except at Victoria College, where the metal escapes are inspected twice yearly. All schools are required to engage in periodical fire drills.

SOLDIERS FIGHT WITH STUDENTS

Disorders Spread From Santiago
to Other Towns in Havana—
Troops Fire on School

SANTIAGO, Cuba, Sept. 6 (AP). — Hostilities between students and soldiers were renewed here today, and the resulting disorders spread to nearby towns.

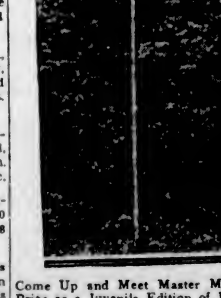

A passerby and two students were wounded as the soldiers and students clashed.

BATTLE AT SCHOOL

CAMAGUAY, Cuba, Sept. 6 (AP). — Fighting broke out tonight between soldiers and students barricaded in the high school here.

Troops concentrated a heavy fire on the building, and students claimed they were prepared to hold out all night. Their action was in protest against the recent killing of Rafael Sanchez and Ivo Fernandez, alleged terrorists.

Wins Fancy Dress Prize

Come Up and Meet Master Michael Smith, Threé, Winner of First Prize as a Juvenile Edition of Mae West at the Fancy Dress Competition Held at the Boscombe Carnival, Hants.

City and District

Short Wave Club—The Victoria Short Wave Club will hold a meeting, tomorrow evening, at 2024 Carnarvon Street.

Joins Rotary Club—George S. Brown was accepted as a member of the Rotary Club at the luncheon meeting, held yesterday, in the Empress Hotel. He will be received into membership at the next meeting.

Forty-Five Dollars Stolen—R. Cliff, 3234 Oak Street, reported to police yesterday that \$45 was stolen from his home on Wednesday night. Entry had apparently been made through the front window, the police report stated.

Tribute Paid—A standing minute of silence, in memory of the late W. W. Duncan, former chairman of the municipal school board, was observed by Saanich Council, last night. A letter of condolence will be forwarded to Mr. Duncan's family.

Defer Action—A petition from the Poul Bay Community Association, asking for the changing of the name of Poul Bay to Gonzales Bay, and getting out arguments for the alteration, was received by the Oak Bay Council at its meeting yesterday. No action was taken pending further investigation into the matter.

Amend Regulations—The Government yesterday amended 1934 game regulations to clarify boundaries, and to make clear the bag limit on deer. In the western district, three deer may be taken by an individual during the season, one of which may be a doe. The deer must be tagged, as before.

Cornish Association—The Victoria and District Cornish Association will commence the Winter season, tomorrow night, with a business meeting, at 8 o'clock, in the Macabeer Hall, Fort Street. Following the meeting, there will be cards. All members are asked to attend. Women members are asked to bring refreshments.

Visit City—J. J. Cowie, director of fisheries at Ottawa and secretary of the Biological Board of Canada, accompanied by Major J. A. Motherwell, Vancouver, superintendent of fisheries for British Columbia, arrived in Victoria yesterday and registered at the Empress Hotel. Mr. Cowie stated he was in the city on merely routine business.

Attached to Staff—Neil Perry, of Victoria, has been attached to the staff of the British Columbia Ecological Board.

Photographs on Display — Fifty pictorial landscapes and portraits in a collection recently shown in the United States by pictorial photographers from all parts of the world will be on exhibition in the Duke of Kent private dining-room at the Empress Hotel for a week. The exhibition has been arranged by the Pictorial Photographers of Victoria, and the collection will later be sent to all the large cities of Canada. The general public is invited to attend the exhibition.

Appointments Made — Robert Taylor, of Merritt, was made police in a stipendiary magistrate for Merritt and vicinity, with jurisdiction in the small debts courts, by Provincial order yesterday. He succeeds Captain Stephenson, who appointment was rescinded. Charles H. Colgrove, of Hixon Creek, was named a justice of the peace. A year's lease of certain lands at the University Hill area, Point Grey, between the university and Frank Garnish, of Vancouver, was approved by the Province.

Road Improvements — Following up the plan for improving Lansdowne Road between Poul Bay and Cadboro Bay Roads, the Oak Bay Council has decided to ask the Hudson's Bay Company to move its fence on the south side of that portion of Lansdowne Road, to the proper line, which will be given by the engineer. The company will also be asked to place its fence on Cadboro Bay Road on the proper line from Lansdowne Road to the Uplands gate. This will allow for the making of Lansdowne and Cadboro Bay Roads safer for traffic.

Must Return Lumber — In the Equimait Police Court, yesterday, Magistrate Jay heard evidence against Duncan Macintosh on a charge of having committed theft of some 600 feet of lumber, valued by the owner, H. Redhead, at about \$10. The lumber had been taken from an old building, and the owner testified that the accused had been seen taking some of it from the beach. The accused said that he took it for firewood. The magistrate adjourned the case until next Thursday, with the instructions to the accused to have the lumber returned before that time. The accused said he was on relief.

Await Sentence—John McGrath and Thomas Prosser, charged with having stolen two jacks from the C.P.R. during the night of Saturday, September 1, and also charged with having stolen goods in their possession, knowing them to be stolen, were before Police Magistrate Jay in the city police court yesterday. G. H. Sedger, who represented the two accused, entered a plea of not

Potato Bug Stops Tourist Traffic

LONDON. — A beetle less than half an inch long is ruining passenger traffic between France and Jersey. It is the Colorado beetle, known in North America as the "potato bug," which is ravaging the potato-growing industry of France. Since Jersey authorities started inspecting all passengers and goods from France, tourists have avoided traveling to Jersey.

A Dufferin County farmer was trying to waken his new hired man at 4 a.m.

"What are we going to do today, Boss?" he yawned.
"Harvest oats," the farmer replied.
"Are they wild?"
"Nothing wild about 'em that I know of. Why do you ask that?"
The hired man was puzzled. "If they're not wild," he inquired, "why do we have to sneak upon 'em in the dark?"

Two Killed in Glasgow Collision

GLASGOW, Sept. 6 (CP-Havas). — Two persons were killed and forty injured today in a collision between two passenger trains just outside the Central Railway Station here.

Competition Will Be Keen Among Women Exhibiting at Show

Fine Assortment of Handcrafts Will Be Feature of Women's Building at Provincial Exhibition Next Week—Doll Contest Arranged

NO Provincial Exhibition would be complete without the Women's Building and its interesting display of handcraft of all kinds, and this year the exhibits promise to be even better than ever. There has been a definite revival of all hand work, and the competition should be very keen. Mrs. E. W. Darcus, who is director of the Women's Department again this year, says that many inquiries have been received regarding the various classes, and many new exhibitors will show their work at the Provincial Exhibition at the Willows next week.

Among the special prizes, for work: five different articles and a \$3 of donated by the Hudson's Bay Company for the best embroidery article not entered in any other class.

There will be prizes for the best collection of fancywork (professional), embroidery, etc. (amateur), lace and crocheted, knitting and crocheted in wool, needlework, etc.

Presentations Made at Dance

A most delightful private dance was held last night in the K. of P. Hall, by the Painter's Bruins softball team, the occasion being the presentation of cups to the winners of the "C" division of the Lower Island Softball League.

The cups were presented by Mr. E. Stock, president of the Lower Island Softball Association. The Gommans Challenge Cup for the winners of the "C" section was presented to Mr. Bert Simpson, manager of the Painter's Bruins. The Poodle Dog Knockout and the Peden Knockout Cups were presented to Mr. A. Sansbury, manager of the North Saanich Service Club, runners-up for "C" section.

The affair was convened by Mr. and Mrs. Kirkbride, Mr. and Mrs. W. H. McKean, Mrs. F. E. Price, Mr. and Mrs. A. H. Painter and Mrs. A. Jewsbury. Dancing was enjoyed until a late hour, the music being supplied by a popular three-piece orchestra. Refreshments were served at 11 o'clock.

Silas: My new farm hand thinks that he knows more about farming than I do.
Hiram: He must be a literary guy! One of them magazine writers!

Clubs-Societies

Soroptimist Club

The executive of the Soroptimist Club will meet this evening, at 8 o'clock, in the clubrooms, 605 Courtney Street. Arrangements are being made to entertain Miss Beatrice Lantz and her sister, of the San Francisco club. Miss Lantz is a consulting physiologist.

St. Mark's W.A.

St. Mark's Women's Auxiliary will open the Winter season with a silver tea, to be held in the Parish Hall, on Tuesday afternoon, at 3 o'clock. All members of the church are asked to attend.

Typographical W.A.

The Women's Auxiliary to Typographical Union No. 201 will hold its first meeting of this season, on Thursday afternoon, at 2:30 o'clock, in the S.O.E. Hall, Broad Street. All members are urged to be present.

Miraph Court

A bridge and whist party will be held under the auspices of Miraph Court, Order of Amateurs, Saturday evening, commencing at 8:15 o'clock, at the home of Mrs. N. Kelly, 1337 Esquimalt Road.

I.O.D.E. Activities

Malahat Chapter

The Malahat Chapter, I.O.D.E., held its first meeting after the Summer recess, on Wednesday, at Rosedale Inn. The regent, Mrs. V. H. Stewart-MacLeod, was in the chair. Mrs. M. Beasley, who has been abroad for several months, had been welcomed back to the chapter. It was decided to hold a series of card parties between the present date and the October meeting, as a means of raising funds for the chapter. Miss R. Stone was appointed convener. Mrs. Macklin, Mrs. Beasley and Mrs. Stewart-MacLeod offered to donate prizes. The educational secretary was asked to order two and a half dozen I.O.D.E. calendars. Tea was served by Mrs. Macklin and Mrs. O. More.

H.M.S. Resolution Chapter

H.M.S. Resolution Chapter will meet on Tuesday at 8 p.m., at 383 King George Terrace. Members are asked to bring knitted garments done during the Summer.

REHEARSALS POSTPONED

The opening rehearsals of the First United Church Choir and Orpheus Choral Society have been postponed from September 11 until September 18, on account of the exhibition at the Willows. These rehearsals will be held in the schoolroom of the First United Church, Balmoral Road, each Tuesday thereafter at 8 p.m.

Prospective members for the chorus may apply to W. C. Pyke, 733 Yates Street, E 3412, or before the practice on September 18.

Canadian Women's Club Season Will Begin on Tuesday

THE Women's Canadian Club's 1934-35 season will open next Tuesday with a tea, which will also celebrate the twenty-fifth anniversary of the founding of the club in Victoria. Apart from the music, which is being given by Mrs. F. G. Aldous, there will, on this occasion, be no formal programme. A soloist, new to Victoria audiences, will be heard in Pierre Timp, a very gifted tenor, who is to sing "Am Meer" and Schubert's "The Wanderer," and the other soloists will be Miss Maquinn Daniels, who will play "Romance" (Bibulus), and "Frieder" (Frascati Bridge), and Mrs. A. M. Watson, dramatic soprano, who has consented to give two numbers. Miss Maquinn Daniels will be the accompanist.

Motion Pictures Of East Africa Will Be Shown

At the meeting of the Sir James and Lady Douglas Chapter, yesterday afternoon, plans were made for a benefit showing of motion pictures of "The Sportman's Paradise," in East Africa, Kenya Colony, which the chapter will sponsor early next month. The movies were taken by Mr. Frank Puller, of Oakville, Ont., who spent two months last Winter hunting on the plains of Serengeti and at Lake Tanganyika, and returned home with some fine specimens of his skill and over 2,000 feet of movie film, which he has consented to show for the chapter's benefit when he arrives in Victoria. The time and place will be announced as soon as possible.

The members accorded a silent standing tribute to the memory of the late Mr. John Hosie, who had ever been an inspiring and helpful friend to the chapter. Sympathy has been expressed with Miss Hosie, a valued member of the chapter.

The report on Heather Day was brought in, and the chapter expresses grateful thanks to the many kind friends who assisted in selling the heather and helping with the arrangements. Twenty-five dollars was voted for secondary education of the Municipal Chapter and fifty I.O.D.E. calendars will be ordered. The notice of the semi-annual meeting of the Provincial Chapter, to be held in Chilliwack on October 18, with accompanying information, was considered.

Y.P.S. News

METROPOLITAN

Metropolitan United Young People's Society will hold its opening meeting on Monday evening, in the schoolroom, which will take the form of a fellowship social under the theme of "Batter Up."

An attractive and unique programme has been arranged by the new executive. All the old members of the society are cordially invited to renew the friendship of last year, and new members will be most welcome to this opening event of the season. The coming weeks promise many new, novel and interesting programmes for the Monday meetings. The drama group is getting under way again, and any of the members interested in dramatic work are invited to get in touch with Miss Edith White.

The Fairfield United Church Choir

The Fairfield United Church Choir will commence regular practices for the coming season next Thursday evening, at 8 o'clock, and it is hoped that there will be a large attendance. All those interested in their work are invited to join in the practices.

Young Chapter Arranges for Bridge Party

Arrangements for a bridge party to be held between October 1 and 5, were made at the monthly meeting of the Robert Burns McMillan Chapter, I.O.D.E., last night at headquarters, with the regent, Mrs. H. G. Bolt, presiding. Several of the members will entertain at their homes, and will be assisted by those not acting as hostesses. Mrs. L. S. Gosse was appointed convener. Both auction and contract-bridge will be played.

Plans were discussed for a rummage sale to be held some time in October. Mrs. Bolt was appointed to investigate suitable stores for holding the sale, and report to the next meeting. The educational secretary reported on the special meeting held at the home of Miss A. B. Cook.

A request was received from the blind to assist a woman. It was decided to send her a monthly donation. Assistance was also asked for the members to help with the blind stall at the Provincial Exhibition, on Wednesday. Mrs. Bolt and Miss Ellen McPherson offered to assist. Three new members were proposed. Mrs. Bolt extended the best wishes of the members to Miss Clair Allen, whose marriage will take place this month.

PARIS STYLES

By MARY KNIGHT
United Press Staff Correspondent.

PARIS (UPI).—Well, well! A New England governor has just shown his two daughters how to make ends meet in the Rue de la Paix.

Governor Fuller is the fond father whose daughters, Lydia and Mary, have been shopping at No. 4 Rue de la Paix, up on the fourth floor, where Madame Schiaparelli holds forth. Not that the Fullers really have to economize—it is only because they are smart that they actually figure things out and then stick to their figures.

Father Fuller insisted on looking around with his children at all the feminine finery, and following his expert advice, Mary and Lydia bought simple white evening dresses with the gayest of sapes and boleros in ruched tulle. Worn with chic accessories, one dress will grace many occasions in various guises.

Lydia's dress is long and straight in white newwork. Mary's is severely simple and of white "monastique"—one of those special weaves by Madame S. The gowns are sleeveless, and with low décolletages, back and front, but for informal wear there are boleros of self material made with the primest of necklines and with long sleeves.

Madame Schiaparelli said it was easy to understand how Mr. Fuller got to be governor—he was born one to begin with and governing just comes natural, like breathing, whether it is for his children's wearing apparel or for affairs of state.

TODAY'S FASHION TIP

A New England governor likes simple white evening gowns with variety in accessories.

The Vocalist—I'm going away to study singing.
Friend—Good! How far away?

Aorangi Made Fast Voyage From South Seas—In Yesterday

Emma Alexander Here Last Night—Gracia In—Lochgoil Here—Santa Elena Coming—Empress of Asia Sailing Tomorrow

Almost a full day ahead of time, the Canadian-Australasian motorship Aorangi, Captain T. V. Hill, commander, docked alongside Rithet pier shortly after noon yesterday, inbound from Australia, New Zealand, Fiji and Hawaii. The liner brought in a small passenger list, ninety-three in all, including many bags of mail and considerable cargo. Travelers, mails and cargo were left here before the ship continued to Vancouver at 3 o'clock. Officers of the ship reported a smooth passage from the South Seas.

Among the travelers aboard the Aorangi were V. M. Brooker, of Amalgamated Wireless, Limited, Sydney, on a business trip to the United States; Frank Hamilton, chairman of the New Guinea Goldfields, Limited, visiting Canada, United States and Europe on business; Mr. and Mrs. R. H. Bartley and child, the former being general manager of the Auckland Electric Power Board, making a combined pleasure and business trip to England by way of Canada and the United States; and S. Markland, executor of Leyland Motors, Limited, London, returning home following a business tour of Australia and New Zealand.

OTHERS ABOARD
Other prominent passengers on the Aorangi were J. Ross-Orr, connected with Harold P. Ritchie & Co. Company, Toronto, returning home from a business visit to Australia and New Zealand; Rev. and Mrs. G. S. Bird, the former being Vicar of Kewdale, England, proceeding home; P. H. Whitley, manager for New Zealand for Goodyear Tire & Rubber Company, on his way to England; Professor and Mrs. Denzler, noted Austrian educators, en route to Austria by way of the United States; H. Edmondson, prominent attorney of Honolulu; Miss J. Wyndham, of the Kindergarten Training College, Sydney, bound for Canada University; Squadron Leader H. C. McGregor and H. C. Walker, prominent New Zealand flyers, on their way to England to take part in the centenary air race from England to Australia; and P. J. Morris, well-known actor, Duncan, returning home following a visit to Australia.

From California ports, the Pacific Steamship Lines S. S. Emma Alexander arrived alongside Rithet Piers

last evening, shortly after 10 o'clock. The Emma Alexander had all her passenger accommodation taken for the voyage North, and left a number of travelers for Island and Mainland points here. Some general cargo was also discharged. The liner continued to Seattle at midnight.

Inbound from the United Kingdom by way of Panama and California ports, the Donaldson freighter Gracia arrived alongside Rithet Piers at 8 o'clock yesterday morning. The Gracia left some general cargo here, and loaded lumber for the homeward-bound voyage. Captain James Cook had nothing unusual to report on arrival here. The weather was calm along the coast, with considerable fog. The Gracia proceeded to Mainland ports shortly after 1 o'clock yesterday afternoon.

LOCHGOIL IN
Arriving at William Head at 4 o'clock this morning, the Royal Mail Lines motorship Lochgoil was to dock at 7 o'clock at Ogden Point Piers. The Lochgoil has passengers aboard, the majority of them going through to Vancouver, where the liner will proceed after completing her business here.

Tomorrow morning, the Grace Line S. S. Santa Elena is due to arrive alongside Rithet Piers, inbound from New York via ports in Cuba, Central and South America, Canal Zone, Mexico and California. The Santa Elena is bringing a large list of travelers North, a number of whom will disembark here. There is also considerable freight for discharge, some of which is for trans-shipment aboard the S. S. Empress of Asia. The Santa Elena is due at 8 o'clock, and will sail for Seattle at 11 o'clock.

Bound for ports in the Far East, the Canadian Pacific S. S. Empress of Asia will be here tomorrow afternoon. The liner is due to arrive alongside Rithet Piers at 4 o'clock, and scheduled to sail at 5:30 o'clock for Yokohama, her first port of call on the other side of the Pacific.

MEET WEDNESDAY NEXT
On next Wednesday evening, September 12, the crew of the good ship Thermopylae will muster for the Winter cruise, Captain McDonald announces. The meeting will be held in the usual place, at the usual time. Friends are invited.

GOOD YEAR FOR Mrs. Sopwith Steers Yacht B.C. FISHERMEN

Canners and Reduction Plants All Busy With Harvest of Sea

NANAIMO, Sept. 6.—The advent of the seaplane service in the Fisheries Department is proving a boon in the work of preventing illegal fishing, according to J. P. Tait, supervisor of fisheries, with offices in Nanaimo. Because it covers greater territory in a shorter space of time and can swoop down on short notice, it has created a deterrent to would-be offenders. The seaplane has also become very useful to visit interior lakes on the Island where fish go in to spawn. When it is determined that salmon are in the spawning grounds, the department makes the trip to these places to estimate the number of salmon that have reached the isolated areas with a view to removing obstacles that prevent the fish from returning to open waters. The seaplane can do in a day what used to take two or three weeks to accomplish on foot.

"Indications at the present time point to a banner year in the fishing industry this season," said Mr. Tait.

Practically all the seine boats are fishing for sockeye at the mouth of the Fraser River at the present time, where a good run is reported. So far this year the catch has exceeded any year for the same period, with the exception of 1930.

GOOD SEASON
A very successful season is also reported in No. 3 district, Vancouver Island, where the fish have begun to date an excellent run of sockeye and a good run of pink salmon. A fleet of 700 boats is trawling on the West Coast. There is a good run of coho and spring salmon also reported from this district. As a result of higher prices being paid than for several years past, many of the trawlers to date have made \$7,000 per crew this year. Pilchards came in in unusual abundance this year, appearing in all the areas on the West Coast. They are mostly sent to reduction plants and to canneries operating there. Up to August 25, six reduction plants on the West Coast have made a total pack of 27,821 green tons, that have produced 980,805 gallons of oil and 6,134 tons of high-grade meal for cattle and poultry feed and for other uses. The oil is used for soap-making and different purposes. The canneries in addition, have produced 24,100 cases since July 10, considered good for an approximate six weeks period.

The halibut season was considered very successful, and due to heavy catches landed in local waters and up the coast as far as Prince Rupert, a closure has been put on for the year, which commenced August 19.

Cod fishing has been attended with the usual success this season, as well as other miscellaneous fishing.

CANADA-UNITED STATES

Exemption of ships trading in certain sheltered waters off the Pacific Coast from the provisions of the International Convention respecting load lines—collectors of customs, shipowners and others concerned are hereby advised that on December 9, 1933, a convention between the Dominion of Canada and the United States of America was signed at Washington, in accordance with the provisions of Paragraph 2 of Article 2 of the International Convention, respecting load lines, which was signed at London, July 5, 1930, in virtue of which ships registered in Canada or in the United States of America when plying in any of the waters mentioned hereunder shall be exempt from the load line statutes of Canada and the United States enforcing the provisions of the International Convention above mentioned. The waters of Puget Sound, the waters lying between Vancouver Island and the Mainland, and east of a line from a point one nautical mile west of the city limits in the State of Washington to the north end of Vancouver Island, and of a line from Hope Island, British Columbia to Cape Calvert, Calvert Island, British Columbia, the waters east of a line from Cape Calvert to Duke Point on Duke Island, and the waters north of Duke Island and east of Prince of Wales Island, Baranof Island and Chigof Island, the waters of Peril, Neva and Olga Straits to Haida, and the waters east of a line from Port Althrop on Chigof Island to Cape Spencer, Alaska.

The convention between the Dominion of Canada and the United States of America has been duly ratified, and is now in force.

E. HAWKEN,
Assistant Deputy Minister.

EMPIRE

Shirley
Eight tables were in play at the military five hundred card party, held at the schoolhouse, recently. The winners of the first prizes were Mrs. E. Banner, Mrs. M. A. Clark, Mr. Stanley Gardiner and Mr. E. Robinson. The traveling prize was won by Mrs. E. H. Clark, Miss Julia Pedneault, Mr. E. H. Clark and Mr. Arthur Pedneault. Miss J. Shanahan and Mr. Philip Arden won the second prizes. Dancing was enjoyed until a late hour, after refreshments had been served.

DOMINION STARS SHIRLEY TEMPLE

Sparkling Little Comedienne Has
Leading Role in the Dramatic
"Now and Forever"

A sad-eyed little Dachshund and a five-year-old little blonde girl were the principals in an off-stage comedy that the camera, unfortunately, could not record, during the production of Paramount's "Now and Forever," opening today at the Dominion Theatre.

The little girl is Shirley Temple, who is starred with Gary Cooper and Carole Lombard, and the dog is Buster, the property of Sir Guy Standing, English actor, who is featured in "Now and Forever."

The camera was grinding away at Gary Cooper and Carole Lombard in a tense moment, when suddenly the sound recorder picked up a little squeal that rose to a howl. "Out!" roared Director Henry Hathaway, and rose in wrath with all his assistants around him to denounce the culprit.

Behind the set crouched Shirley Temple with a piece of cake in her hand, and Buster striving to open her fist with his wet nose. The squeals had been eloquent of hunger. "Now and Forever" is the story of a little girl, and her carefree, irresponsible father. Acting the little girl, Shirley Temple, by force of her love and her faith, transforms her father, Gary Cooper, from the man he thought he was to the man she wanted him to be.

COLUMBIA Although Tim McCoy has completed five of his terrifically fast action dramas during the past eight months, he has never received a scratch or an injury of any kind.

AMUSEMENTS

On the Stage
Empire—"The Chicago Follies."

On the Screen
Capitol—Jackie Cooper in "Treasure Island."
Columbia—"Hell Bent for Love," starring Tim McCoy.
Dominion—Shirley Temple in "Now and Forever."
Playhouse—"Chance at Heaven," featuring Ginger Rogers.

McCoy has appeared as a racing motorcycle driver, a racing aviator pilot, a newspaper man, a telephone maintenance engineer, and as the fast-riding motorcycle officer in "Hell Bent for Love," which is now at the Columbia Theatre.

PLAYHOUSE A new romantic team, composed of Joel McCrea and Ginger Rogers as lovers, is introduced in P.M.O.-Radio Pictures version of the Vina Delmar story, "Chance at Heaven," now at the Playhouse Theatre. Although they have made screen love to many other stars and featured players, McCrea and Rogers never before have appeared opposite each other.

LIVELY REVUE ON STAGE AT EMPIRE

"Chicago Follies" Open Short Engagement Here Today—Noted Entertainers in Company

Today will see the first local performance by "The Chicago Follies" at the Empire Theatre. The same company will also be there tomorrow evening and again on Monday evening.

The great sparkling curtain will go up this evening on one of the smartest stage shows of its type seen in Victoria in some months. Smart music, gorgeous costumes and a number of clever acts will feature the programme.

"The Ten Barbarians," presented by Chet Wiley, will be featured on the stage. Bernie Nolan is master of ceremonies, and on the programme are singers, dancers and clever comedians.

"The Chicago Follies" broke all attendance records at one of Seattle's leading theatres last week, and the company comes to Victoria with the highest recommendations of theatrical critics in many of the leading cities of the United States, from New York to Los Angeles.

**BETTY BALFOUR HAS
ROLE IN NEW FILM**

An interesting return to the screen is that made by Betty Balfour, who, in the Gaumont-British picture, "Evergreen," opening to-

Violence Rife in Cuba

Two soldiers explore the wreckage of the front of the home, here, of Dr. Mario Diaz Cruz, Cuban minister without portfolio in President Mendia's Cabinet, after a bomb had exploded. The bombing, while it caused no loss of life, was described as being the most destructive in Havana's long history. Residences in a four-block area were shaken by the blast.

morrow at the Capitol Theatre, plays the role of Maude, a Cockney member of the old Tivoli music hall chorus, who weds a peer.

Miss Balfour was Britain's sweetest heart in silent films. Those who remember her Cockney characterization as "Squibs" in the series of films dealing with the adventures of that vivacious young lady will not lose an opportunity of renewing their acquaintance.

"Evergreen" is an opulent spectacle, brilliantly staged and directed, with Jesse Matthews in the lead, her "light as thistle-down" dancing, singing and dramatic ability being highlights of this sterling production.

"LOVE IN A VILLAGE"
TO BE PLAYED HERE

Perhaps the technique has altered a little. But take it all in all, the way of a maid with a man was apparently much the same in the eighteenth century as it is today. This idea is conveyed as that dainty little minx, Rosetta, beguiles young Meadows in "Love in a Village," next week at the Empire Theatre. He knows he can't marry beneath him, but she has the sweetest lyric soprano voice. Besides, he has no idea she is anything but a serving lass. And she, of course, is certainly not aware he is heir to a baronetcy. At least not until much later in the play. Then, of course, it is too late to do much about it. Besides, there's a streak of worldly wisdom. It is to be feared, in Rosetta.

COURTENAY RACING

COURTENAY, Sept. 6.—Following are the results of the horse races and other events run here on Labor Day:

Railroads Offer Bargain Tickets For Cent-a-Mile

WINNIPEG, Sept. 6.—Another low fare travel bargain to Eastern Canadian points will be offered the traveling public by the Canadian railways, according to an announcement made today by Joseph B. Parker, secretary of the Canadian Passenger Association. The special rates will apply from all stations in British Columbia, Alberta, Saskatchewan, Manitoba and Ontario, as far East as Port Arthur and Armstrong, and will be good to all stations in Eastern Canada from Sault Ste. Marie, Sudbury, Capreol, Cochrane, Windsor, Sarnia and East. Tickets will be on sale from September 21 to October 2, inclusive, and a thirty-day return limit has been allowed. Shoppers will be permitted at Port William, Armstrong and East. Tickets will be offered at the rate of approximately one cent a mile each way, and will be good in day coaches only. Tourist sleeping car accommodation will be available at slightly higher fares.

WEDNESDAY FOOTBALL LEAGUE TO OPEN SEPT. 26

Double-Header Will Usher in Campaign Of Mid-Week Squads

Four Teams Will Be Seen in Action at Royal Athletic Park With Proceeds Going to Christmas Cheer Fund—Hayward Cup Series Expected to Start Schedule—Entries Close Sept. 17

Soccer teams in the Victoria and District Wednesday Football League will usher in the 1934-35 season on Wednesday, September 26, with a twin bill, at the Royal Athletic Park. Total proceeds from the fixtures will be donated to the Christmas Cheer Fund, organized annually for the city's unemployed.

Monday, September 17, is the final date for the filing of entries, but already five of last year's clubs are figured as sure starters. Spencers, who copped the Pender Cup, symbolic of the league championship, and the McKay Shield; Garrison, winners of the Rennie & Taylor and the Hayward Cup; Hudson's Bay, Navy and the Macabees, members of the loop during the 1933-34 season, are busy lining up material for the opening games.

A number of new clubs are reported as interested in entering the mid-week association, but nothing definite could be gained yesterday evening in this connection.

MAY AFFILIATE

Operated successfully for a number of years as an independent association, the Wednesday Football League may seek affiliation with the British Columbia Soccer Association, which is under the jurisdiction of the British Columbia soccer commission. The commission will meet tomorrow evening, and a delegate from the mid-week loop will interview the members of the board on the matter of affiliation. President Art Stokes, of the Wednesday League, announced last evening.

According to pre-season gossip, the Hudson's Bay will be one of the strong threats for the Wednesday Football League championship this season. The Bays are going out to field a strong eleven and are reported to have such players as Jack Okell and Tommy Musgrave, of the Victoria Wests; Les Kennedy, of last year's Jokers Juniors, liners up for their club. These players, added to such first-class performers as Jimmie Oakman, Tubby Stevens, George Wyatt, Jack Baxter, O'Connell, Menzies and others of their last season's players, will give the large department store a team that will need a lot of watching. Okell,

Alert Service And Eagles to Meet Tonight

Eagles, Twilight Baseball League champions, and the Alert Service nine, winners of the Alderman T. W. C. Hawkins Cup, symbolic of the Juvenile League title, will clash this evening at the Royal Athletic Park in a special challenge fixture. The game will start at 8:15 o'clock, and a great battle is expected.

Jorgens Plays Big Role in Yanks' Win Over White Sox, 5-3

Two Unusual Throwing Feats by New York Backstop Brings Club Through and Slices Detroit's Lead to Five and a Half Games—Giants Nose Out Cubs—Cards Win

AMERICAN LEAGUE

CHICAGO, Sept. 6 (AP). — A couple of unusual throwing feats by Catcher Arndt Jorgens carried the New York Yankees through to a 5-3 victory over the White Sox, today, in the opening game of their series.

The Yanks' victory, while Detroit's game with Philadelphia was rained out, enabled the Yankees to reduce the league leaders' margin to five and one-half games. With two men on in the ninth inning, Charley Uhr was sent in to bat for Catcher Eddie Madjeski, with instructions to bunt. On the first pitch Jorgens caught Dykes off second. The game was then struck out. As he fanned, Hopkins tried to steal second and was doubled. Jorgens to Crockett, to end the game.

R. H. E. New York 5, White Sox 3.

Cricket Eleven Named for Game With Easterners

CAPTAINED by the veteran cricketer, Percy C. Payne, Victoria's "Rep" eleven to oppose the touring Eastern Canada team at Macdonald Park on Wednesday, September 12, was announced yesterday as follows:

Payne, Five C's, captain; Reg. Wrennan, Incog; Arthur Deros, unattached; Eric Quinlan, Five C's; George Wilkinson, Victoria; Jack Payne, Five C's; Art Griffin, Five C's; Bert Edwards, Victoria; Jack Bryden, Incog; and Les Gibbons, Albions. The match will start at 10 o'clock and stumps will be drawn at 6 o'clock. There will be a luncheon interval from 1:15 o'clock to 2:15 o'clock. Tickets for the game may be secured from any cricketer.

Behind the steady twirling of Barrett, tonight.

R. H. E. Syracuse 2, Albany 1.

Batteries: Picknell, Fussell and Laviano; Barrett and Finney.

AMERICAN ASSOCIATION

Kansas City 4, St. Paul 5, at St. Paul.

Seattle 9, 14, 3.

Batteries: Cano and Hershberger; Kallio and Bradbury.

At San Francisco—R. H. E. Oakland 6, 11, 0.

San Francisco 0, 2, 1.

Batteries: Hall and McMullen; Dailow and Menzo.

At Portland, first—R. H. E. Missions 2, 8, 2.

Portland 0, 7, 2.

Batteries: Lucas and Fitzpatrick; Bryant and Cox.

Second game—R. H. E. Missions 5, 7, 1.

Portland 3, 9, 2.

Batteries: Johnson and Wolfman; Fitzpatrick; Ulrich, Brame and Dore, Cox.

Commission to Handle Football

WINNIPEG, Sept. 6 (CP). — Approval in principle of a commission form of administration for soccer, in Ontario, was voted by the annual meeting of the Dominion Football Association here, yesterday.

Consideration was also given to formation of a new branch to be known as the Northern Ontario Football Association. If formed, it would include the territory between North Bay and Fort William.

Committees met again today, and the final session will be held tomorrow, when unfinished business and election of officers will be on the agenda.

CRICKET LINE-UP

Five C's cricket eleven follows: P. C. Payne, captain, Eden Quinlan, Eric Quinlan, G. Payne, P. L. Laid, J. Payne, Attwell, Griffin, Williams and Passmore.

Victoria Cricket Club's line-up for tomorrow's match with the Five C's, at Beacon Hill, is as follows: Goward, Hope, Barber-Starkey, Meredith, Wilkinson, Edwards, Kinch, Peers, Symons, Wilcox and Redding. The game will start at 2:15 o'clock.

EASTERNERS HELD TO TIE BY CALGARY

Touring Cricketers in Draw — Two Canadian Records Are Erased

CALGARY, Sept. 6 (CP). — The touring Eastern Canada cricket team was held to a draw, today, by the Calgary and District All-Stars. Eastern Canada declared when they had run up 269 runs for seven wickets, but the Calgary team still had one wicket standing when play closed. Calgary had scored 141 runs.

Two Canadian records that had previously been held by Rev. F. W. Terry were broken today. His record of 1,509 runs for a season's play was broken by L. A. Percival, who scored 77 runs, and thereby boosted his season's total to 1,515. Percival has played twenty-five innings so far this year.

The other record broken was that of total centuries in one year. Rev. Mr. Terry held a record of twelve, but L. C. Bell, in scoring 108 not out, broke this by boosting his own total for the year to thirteen.

WINS TOSS

The Eastern side again won the toss and elected to bat. L. A. Percival and K. H. Ross, the opening partnership, ran up 68 runs before Ross was caught by Falk of Roberts' bowling. R. G. McLean took Ross' place, only to be caught l.b.w. after scoring one run. L. C. Bell then partnered with Percival, and these two raised the total to 135 before Percival was caught l.b.w. on Paine's bowling.

Bell scored rapidly and a hard drive to the leg boundary saw his century marked up. At close of the Eastern innings R. S. Hart and Bell were batting, with 108 and 14 to their credit.

W. Dean and C. C. Falk opened for Calgary, but the latter was taken in the slips by Percival off Rutherford. Dean continued with sound batting, but at 21 gave Bell a catch at short leg off Loney. P. Higgs went to bat, but at 27 an off-break low on the wicket from Seagram snatched his off stump. H. Newton with and Strudwick with 18 helped the local squad.

YOUTHFUL BOWLER CORRECTS MISTAKE

LONDON, Sept. 6 (CP). — They don't put "anything over" the touring Australian cricketers, now winding up the long English campaign, in which they recaptured the Ashes.

In the match they are playing at present against the Minor Counties the latter were given a first-innings score of 183 runs. Today it was officially corrected to 182.

What should have been a no-ball was incorrectly credited as a run against Hans Ebeling, youthful Aussie bowler. Ebeling read the fact in the morning papers and pointed out to the scorers their mistake.

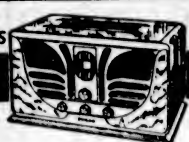

"Dutch" Gainor With Montreal

CALGARY, Sept. 6 (CP). — Norman "Dutch" Gainor, mainstay of the Calgary Tigers in the North-western Professional Hockey League last winter, will don the uniform of the Montreal Maroons this season, according to Lloyd Turner, Tiger owner.

Gainor will report to the Maroons about October 10. He is now in hospital recovering from an operation for varicose veins, but expects to be in good shape by the start of the season.

Trail Golfer Wins Willingdon Cup

L. S. PIPER

OF Trail, B.C., is shown with the Willingdon Cup, which he won during the recent golf week at Banff Springs Hotel, at Banff, when he defeated N. R. DesBrisay, of Winnipeg, and formerly of Vancouver, 6 and 2. Piper had to give his opponent four strokes on the handicap during the thirty-six hole final and shot steady golf to win.

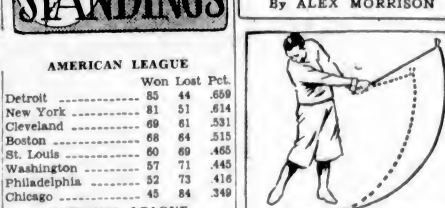

GLENS FALLS, N.Y., Sept. 6 (AP). — Blazing home just before dusk with a par-cracking 68, Ky Laffoon, sensational Denver professional, tied Clarence Clark, of Bloomfield, N.J., for the lead in the first eighteen-hole round of the sixth annual seventy-two-hole \$4,000 Glens Falls open today.

Trailing the leaders by a stroke were Lex Robson, of Toronto, runner-up in last year's Canadian open, and Jack Patroni, a comparatively unknown, of New Rochelle, N.Y.

GOLF FACTS NOT THEORIES!

By ALEX MORRISON

A member of a foursome I played with recently at the Detroit Golf Club was Joe Mack.

Mack employed several famous pros such as Mike Brady and Walter Hagen at his home club, Oakland Hills, the scene of many big competitions.

Being a sponsor of golfers and tournaments, Mack is well versed in the lore of instructors. In fact, he knows too well the popular ideas concerning various parts of the swing.

For example, he has nursed the notion that the right-hand punch at the moment of impact should cause a full free follow through. On the contrary, too much right shortens the action after impact because the right hand forces the club to swing sharply around the left leg.

A swing that finds the left side in control finishes properly through the momentum of the club after impact.

Cow-Testing Results

Vancouver Island (South) Cow-Testing Association reports the following list of cows in the above association that gave fifty pounds or more of butterfat for August, 1934:

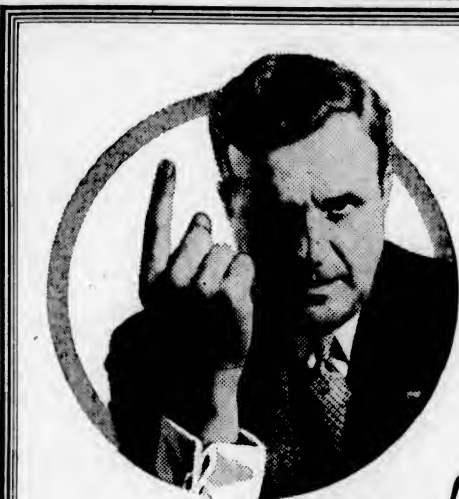

HER CHILD'S SCREAM!

NOTHING strikes such terror into a mother's heart as the scream of her child. Instantly she has a mental picture of pain—perhaps serious injury. Her first thought is—where is the Zam-Buk. But what if the supply has been used up and not replenished? Think of her feeling of chagrin, despair, of downright fear.

Every mother knows that grand herbal healer—Zam-Buk—knows its great value in cases of burns, scalds, cuts, bruises, etc. As such accidents will happen and always without a moment's warning every wise mother keeps a box of Zam-Buk handy for emergency use.

Zam-Buk is not only an ever-ready first-aid for the skin but it performs the three-fold functions of keeping out disease, soothing pain, and healing damaged tissues quickly and cleanly. No cheap fatty or mineral ointment can ever take the place of this unique herbal Zam-Buk. Renew your supply at once.

MILK CONTROL HAS OBSTACLE

Province Impotent Without Dominion Backing, it Is Said

At the second meeting of its career, yesterday, the British Columbia Marketing Board repeated for the Lower Island Milk Producers' Association what it had previously said for the Fraser Valley organization. This was to the effect that the Province is powerless to authorize imposition of tolls, to demand pooling, or to delegate powers to license or cancel licenses, in respect to British Columbia products marketed at home.

Local commodity boards seeking any or all of these rights must derive them direct from Federal authority as the agent of that authority. For provincial purposes, such boards must also be formed in compliance with British Columbia regulations. Under this arrangement commodity boards handling domestic products would derive powers from two statutes, between them believed to embrace a reasonable amount of regulation.

TO TAKE BALLOT
Norman W. Whittaker, M.P.P., acting for the Lower Island Milk Producers' Association, laid a tentative marketing scheme before the board, but withdrew it later for revision. The ultimate object is to have the British Columbia board approve of the scheme in principle before an actual ballot is taken among milk producers in the area. Should such a ballot be favorable, then a formal petition for creation of a milk board will be presented to Federal and provincial bodies, it is anticipated.

Briefly, the Island organization sought to set up a control area within a radius of twenty-five miles of Victoria, in which central selling, volume control, and other regulatory powers could be exercised for the benefit of the producers as a whole. This area, it was learned, would take in Cowichan, Cobble Hill, Sooke, the Saanich Peninsula, and Beaver Point on Saltspring Island, but not all that island.

FOR 50,000 PERSONS
Mr. Whittaker said there were 4,000 cows and 375 owner-producers in the area, with an estimated production of 20,500,000 pounds of milk annually. There are 252 producer-retailers in an area estimated to comprise a population of 50,000 persons.

A committee composed of A. S. Lambert, C. A. Heigenson and George Clark had held meetings at Royal Oak and elsewhere, canvassing the opinion of producers on market control schemes. With much sentiment in favor of control, the committee desired to proceed further with the scheme.

MANY PROBLEMS
Difficulties enumerated by the British Columbia board were said to include the fluctuating operations of the one-cow producer, who sold milk when it suited him and not at other times; multiplication of city deliveries, wherein many rounds were made over the same streets daily;

and the impossibility of protecting shippers in a controlled area from unlicensed sales within the area by those outside its boundaries and unregulated.

Solution of some of the difficulty was said to lie in the ultimate creation of a milk board that would be the agent of the Dominion, and, at the same time, provincially created with British Columbia rights.

The plan aimed at creation of a milk board of five members, three from one Island organization and two from another. The British Columbia board explained that it would require to register producers separately, and could not treat with any group as an organization. A comprehensive pool of all producers would also have to be made, it was explained.

After further inquiries, Mr. Whittaker withdrew the tentative scheme for revision. Colonel Eric Pepler, president, assisted by J. A. Grant and Dr. W. R. Gunn.

OAK BAY WILL HOLD TAX SALE

List of Properties to Be Offered Tomorrow to Meet Amount Due Municipality

The municipality of Oak Bay will hold its annual tax sale, tomorrow, when properties upon which the taxes for 1932 have not been paid will be offered for sale to satisfy the demands of the municipality. The sale will be held in the Municipal Hall, commencing at 10 o'clock.

During the past week there has been a number of property owners whose holdings were on the list for sale, who have met the amount due and thus saved their land from being offered for sale. About forty falling under this heading have already paid up the amount due.

Radio Programmes

Summary of Schedule of Victoria and Other Pacific Coast Stations

TODAY

How It Started

By JEAN NEWTON

"HEWERS OF WOOD"
Every so often, we run across this expression in reference to people who work for their living under conditions of slavery. A reader inquires as to its origin. The phrase comes honestly by this connotation. It is in fact an allusion to the Gibbonites, who having lost their war with the Israelites, were in accordance with prevailing custom, enslaved by them.

The complete story is told in the Book of Joshua, where in ix, 21, we find:

"And the princes said unto them, Let them live; and they became hewers of wood, and drawers of water unto all the congregation, as the princes had spoken to them."

He: Of love?

Intense Young Thing: Yes; her dance shot . . .
